

Submitter: Claudia Bray

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Conditions in our state continue to decline, while the legislature is already awash in money, with no accountability . If you impose yet another new tax, you will certainly drive out more hard working tax paying residents and you will net lose revenue. Goodbye to income for the city, Multnomah County, and the state. This is a tipping point. This is foolish and immoral. It's time to stop extorting from those of us for work and giving it to those who choose not to participate in civil society.
