This is a bad idea because hard working citizens are already paying alot of taxes just to live here. If there is some new way to get money from us they will. This money is never used wisely and contributes to the decline of our morale and willingness to trust those who are in leadership. While they just make it worse. I wont even go to portland anymore and frankly I am ashamed to admit I'm from there. No we need better less corrupt leaders. Not more forced slavery.
