Measure: HB4050

Dear Lawmakers,

Please stop going after the hard working blue collar family owned and operated trucking companies. When inflation is so bad from terrible governing policies at both local and national levels the last thing that we should be doing is making it even more expensive for the transportation/supply line sector. These costs will assuredly get passed down to the consumers as well so not only does the transportation sector suffer from higher costs but so do us consumers from the raised price of the products. Please make it as cheap and efficient as possible for our trucking companies both small and large to move product around the state. Please vote YES on HB-4050. Thank you.

Sincerely,
Chad Kernutt
