

Submitter: FLOYD GREGORICH
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

First of all, the money the legislature spends is not their money. It revenue gathered from and supposed to be spent in considered and frugal manner for the taxpayers of Oregon. When our legislators fail to do this said representatives need to re consider their expenditures of public funds instead of passing laws to extort more revenue to enable their reckless and ill-considered spending. It is not your (the government's) money. It is the duty of the government employees to work with in their budget not just raise taxes.
