On Behalf Of: Phil Grawunder
Committee: House Committee On Rules
Measure: HJR201

Oregon already taxes more than needed via income tax. I strongly oppose any additional taxation. I strongly oppose the way revenue from existing taxation is spent now. If elected officials think people that don't work or need free food or housing paid for my Oregon taxpayers, they should first donate all of their wages to charity instead of spending my money.

Since homelessness is such an issue, and elected officials want to spend my money, elected officials should offer a homeless person the opportunity to stay in their(the elected officials) home. Doing otherwise is hypocritical.
