

Submitter: Barbara Castor

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Amendments to Oregon's Constitution should arise from the will of the people of Oregon.

Oregon's property taxes are already proving to be a barrier to home ownership and home retention, especially for young people and seniors.

The state can't use Oregonians like an ATM machine.

"Public Safety" isn't even defined clearly.

This is a power and money grab that further expand the state and weakens the freedom and independence of individuals.

I strongly oppose.
