

Submitter: ROCKNEY BUTZER
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

My wife and I live in a small subdivision community with an older population who I believe would be drastically affected by the passage of HJR201. I have lived in Oregon for 74 years and never considered moving anywhere else, ever. If this measure passes, we will move to a different state I promise. When will the Democratic legislature of this state realize that taxing the citizens of Oregon is not the answer to their financial problems. There is only so much money to go around, and poor financial decisions on the part of the Democrats does not constitute raising taxes to pay for those decisions. When will enough be enough. Rockney V Butzer
