Oregon is already one of the more highly taxed states. When I moved here my property taxes stayed the same in Vegas - for a home worth 50% of the value I had in Vegas.

Housing is already suffering, this will slow it down more. Homelessness is already high, and raising property tax, that will increase homelessness - either directly, or indirectly through higher rent.

I'm on a fixed budget, with medical bills I'm trying to pay off. At my current rate of payment it's going to take years. I don't have additional funds to fund your pet projects.

You don't need more money, you need to stop wasting money. Live within your budget, like all of your taxpayers have to do.
