

Submitter: Cynthia Morman

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB1530

I strongly support SB 1530 because I have witnessed the amazing impact that providing furnishings to people in need can make. As a volunteer in Disaster Services with the American Red Cross in Central Oregon, I have worked with many families who have been impacted by devastating home fires. Organizations like Furnish Hope have stepped up to help provide these folks who have lost everything with furnishings in a new place to live. The impact is very powerful!
These types of organizations deserve help with funding to enable them to serve even more people in need.
