Re: I support SB1571-2

I'm pleased to see the Oregon Legislature working on combating the rampant fake news that is disseminated for the purpose of trying to win an election but I'm very disappointed that the maximum fine is only \$10,000.

After looking at campaign expenditures of the Senators & Representatives that have signed on to this bill, posted on the Secretary of State website (Candidate Filings and Local Measures), \$10,000 is not enough to discourage ANYONE from deceptive campaign practices.

This is a start, but Oregonians deserve a bill with a fine large enough to discourage the use of "fake news" in campaigning.
