Committee: House Committee On Rules  
Measure: HJR201

Not long ago due to a school bond election, my taxes jumped over \$500 on my house and \$500 on my duplex. Now it is up \$1000 on each. Other properties are up as well. I have rental units that have not been increased in rent amounts in years because tenants cannot pay more. Where is this going to end? I am 82 yrs old. We voted that school bond down, then they immediately brought it up for another election that passed by 2-3 votes. Where are we supposed to come up with \$\$\$\$ any time the city, county, state thinks they want more. Business license just jumped \$40. Utilities increasing, insurance as well. WHERE IS MORE SUPPOSED TO COME FROM???
