Measure: SB1583

This bill must be opposed as showing children sexually explicit materials is extremely harmful to them and quite frankly, seems illegal. Parents have been and always will be the decision makers for their children. They alone know what is best for their children. The decisions regarding public school textbooks etc. must remain with local communities. SB1583 is pushing gender ideology on everyone, and parents, regardless of political beliefs do not want this. We must stop inappropriate sexual content being shown to children and shutting down this bill is critical.
