

Submitter: Matthew Sprague

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Oregonian have spoken many times in the past regarding property taxes. An end around such as this is inappropriate and unprofessional. Look first to cleansing the administrative aspects of government to reduce spending to provide funding for important services. (Start with ODOTs wastefulness). Oregon and local, regional government just in the last.5 years have added tremendous tax stress to people and businesses only to demonstrate how poorly the monies are spent or even where the money is. Let's not punish the people until your house is cleaned up showing the states worthiness to manage money.
