

Submitter: S B
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

Taxation as well as spending should always be under local control. This bill strips away our democratic process by diluting the voices of those that are most affected by property taxes, while shifting monies to government favored projects and corporations. This bill will also lead to out of control tax increases, divesting every day citizens from the ability to own and continue to live in their home through their retirement. This bill will lead to an increase in homelessness and dramatically reduce personal home ownership over time. This bill will lead to property taxes being so unaffordable that almost exclusively, in the future, only corporations will be able to own property. Passage of this bill is the beginning of the end of the American Dream.
