

Submitter: Chad Bingham
On Behalf Of: Self
Committee: House Committee On Revenue
Measure: HB4072

Dear committee members

I appreciate the bipartisan effort to address the issue in a fair and reasonable. Thank you for working together to find a fair solution for the funding of Salem's vital services. The state of Oregon owns billions of dollars worth of real estate in our city, and benefits from our city services, but does not contribute toward the funding of vital services like all of the other residents and business owners. It seems to be a fair solution that the state would be responsible to cover the expense of the services the city provides. I am also encouraged that Governor Kotek has expressed support for this type of proposal. I encourage you to vote in the affirmative. I appreciate the service you all provide to our state.

Sincerely
Chad Bingham
Salem resident, business owner and physician
