

**Testimony is on behalf of:**

**Measure:** HJR 201

**Committee:** House Committee On Rules

**Position on the Measure:** Oppose

**Testimony:**

Taxation is theft. Property tax is the most heinous. It essentially means you don't own your home. You're renting it from the government.

Another state wide tax will further burden already struggling citizens.

Rather than stealing more of our money, how about reducing the size of the government.

It's not the government's job to compensate for citizens and non-citizens poor life decisions.

Non-citizens should get nothing by the way.
