

Submitter: Jack Callison

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Oregon is already one of the most/highly taxed states in the country. More state RE tax upon the already very high county taxes will make it unbearable for most people to obtain or maintain a home in this state. Just more reason to leave this state, along with the non-thinking/caring govt. And then we have the KICKER because the people are already being overtaxed by this govt. Time to leave is in the forecast.
