

Submitter: Debra Koller

On Behalf  
Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal  
and World Affairs

Measure: SB1548

Please vote to have Pacific Standard time year around. The change every 6 months is very detrimental to those who have mental health/depression issues. Dealing with mental health issues is hard enough to get your stability; adding or losing an hour every 6 months can disrupt that stability.

Again, please vote to keep the same time year around. Thank you!
