

Submitter: Paul Fooks  
On Behalf Of: Self and family  
Committee: House Committee On Rules  
Measure: HJR201

This measure is an affront to the people of Oregon. Adding an additional property tax burden cannot be allowed and must be opposed. There is not even a listing of the sponsors included in the listing, nor a citation for the financial implications. Terribly non-transparent for both parts of this. Those reasons alone are sufficient reason to bury this measure. All property? Possessions, including intangible? Property taxes cause owners to rent private property from the state, be that at local or larger scale level. Creating a new "security" bureaucracy unnecessary, unless the aim is to mimic the Chinese communist party apparatus. Maybe that is the intent. This bill must be scuttled and discarded.

Sincerely,

Paul Fooks
