

Submitter: Daryl Creech  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HJR201

RE: HJR 201.

Please, no new taxes.

Anyone who follows government for long will know that taxes grow and expand, and almost never shrink. Once you open the doors to this new type of property tax it will never go away and will surely grow. Increased property taxes make it more expensive to live for everyone, and affect both homeowners and renters alike, no one is free from property taxes, even if they are only affected when the taxes are passed through as rent increases and they don't realize it.

I understand the desire to fund more programs for the public, good, but re-direct existing funds and taxes, please don't create new ones. So I will say again, Please, No new Taxes.

Thank you.

Daryl Creech.
