

Submitter: Levi Campbell
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1583

I am fully in support of SB 1583! I think this is something we should have had in place years ago when MAGA became a social-political platform / identity and puritanical crusades against queer individuals and any knowledge/ information thereof was under such ridiculous fear mongering and projected accusations, not to mention targeted vitriol.

It is a major disservice to ban and crucify such knowledge for those people who are seeking answers that align with their understanding of their reality in LGBTQIA+.
