

Submitter: Richard Massey

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Increases in property taxes are not based on ability to pay. Many people on fixed incomes are struggling with inflation costs can't afford another tax. Property tax increases are forcing some people to loose their homes. Property taxes are a barrier to home affordably for many Oregonians. At a time when Oregon is struggling to house our citizens placing another home affordability barrier is not the answer.
