

Submitter: Radhika Breaden

On Behalf
Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal
and World Affairs

Measure: SB1548

As a board certified Sleep Medicine physician, I strongly support this measure. As part of the American Academy of Sleep Medicine, we need to end clock change sooner than later; to help health, safety, children, elderly, commuters, and outdoor laborer; to avoid repeating the 1974 permanent DST disaster; to affirm the many endorsements of permanent Standard Time.

Thank you for your consideration and time.

Sincerely,

Radhika S. Breaden MD, MPH
