On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Currently, higher income earners that dislike the high tax rate of Multnomah county are free to move to another county within Oregon, and many are doing so. If this measure passes they will move out of state, and you will run out of money. California lost much of their taxable income to residents moving away. The hard answer here is that spending needs to be cut, taxes can never be raised enough to satiate the spending of the state of Oregon.
