

Submitter: Tom Kemp
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

Please reject HJR 201. This is a massive slap in the face to Oregonians. We have had enough tax increases. This is an unfair way to tax people. If you need more money, raise the income tax and stop inventing new taxes. Limits on property taxes were enacted when Oregonians became fed up with high property taxes. The sentiment will return, and we will vote out all of its supporters if this bill gets approved by the short-sighted House.
