

Submitter: Gail Cordell

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB4112

Passing HB4112 is a no brainer and should appeal to both parties. Please take advantage of the money available in the Inflation Reduction Act to allow Oregon to take a leadership role in developing clean energy technologies. This funding will allow Oregon to create jobs that will provide family wages and help replace those lost to them through automation and other economic issues such as business leaving Oregon.

We need both the jobs and the technology to help ease the climate crisis. The money exists and we should use it.

For these reasons and other reasons, I strongly urge you to support HB 4112 and the -3 amendment. Thank you for your time.

Gail Cordell
