

Submitter: Deborah Rodgers

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Oregon pays outrageous taxes now. Every year there is another tax implemented, STT, ORFL, CAT, these taxes are destroying businesses and pushing people to move out of the state. This bill states that a Legislative Assembly can impose property tax on all real property and all personal property. Does that mean they will tax us on our phones, computers, televisions? Businesses are already paying personal property tax on computers, printers, etc. Will we have to open our doors to let auditors come in to ensure every asset we own is listed as taxable property tax?

NO on HJR 201!!!
