

Submitter: Paula Germond
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

This bill appears to negate two protective sections of our state constitution. I wish for all Oregonians to continue to enjoy the safety to be found in keeping our property taxes administered by our local governing bodies. We do NOT need a state property tax. Please! Get creative and let our state be an example of living simply for the benefit of our citizens, not the perceived needs by a bureaucracy removed from local needs. My property should not be valued and taxed by an administration that doesn't even own property here. And since I am talking about taxes/funding let us get creative with schooling and stop funneling \$\$ to schools to promote ideology that the common-sense majority do not agree with. Please DO NOT create a state property tax in Oregon.
