

Submitter: Dawn McCloskey

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Please do not make Oregon an even more expensive state to live in. My parents already struggle and they tried to plan for retirement. My brother and I are both disabled. So we are financially unable to help. This will only affect the lower income classes and offer up what little we as Oregonians have often paid for decades to own. I have lived here all my 50 years of life and this will end my ability to do so without moving into my parents small home. This is not a bill that will help. It will hurt so many Oregonians who have been here our entire lives. Please vote no and protect us.
