I OPPOSE HJR 201. What happened to taxation without representation?? This is the worst idea I've heard in a while. We already have too high a tax burden, and we are at risk of putting more people out of being able to afford their homes and land, and making people not be able to afford rent. With tax increases, Oregon becomes less and less affordable and livable. There are better ways ensure public safety without additional tax.

Do you even read the submitted testimony? Remember, you serve the people. Not the other way around. We don't want more of our money taken away. Taking ever increasing amounts of money does not fix anything. We pay more taxes now than ever. Don't give more power to financially strangle us even more. If you really want to help, go invest time in someone's life instead taking ever more money from them.
