The taxes we pay are already too high! Thru governmental mismanagement and slush funds you have taxed the people too far!
You have now cut ODOT funding as we pay higher gas taxes and taxes on cars, and taxes on boats, ATV's, our land, our pay, our leisure, and you want more money?
This government continues to throw money at Ukraine and wars abroad, while welcoming foreigners with no documentation and giving them room, board, and credit cards, and you want the tax payers to fund more of this?

No! The answer is No! You can not have more from the people who have been bled dry and watching the government continue to steal from us! Not only can we not afford to give more, we won't give more!
