HJR 201

Committee Members,

My mortgage increased by about \$50 already this year from taxes alone. (I have a fixed rate mortgage.)

Oregon had such a surplus of income that I even got a small amount of the kicker this year.

I was horrified the first year I filed a return after moving to Oregon. Less than \$10000 income from my retirement and STILL it was taxed! That kind of 'over reach' is unbelievable!

The overspending in Salem on whims that do not benefit the majority has got to stop! The State's hand in our pockets has gone beyond reasonable.

Please allow HJR 201 to go DOWN in flames as any respectable legislative body would!

Thank you,
Valerie Gottschalk
