

Submitter: Patrick Gregg

On Behalf Of:

Committee: Senate Committee On Natural Resources and Wildfire

Measure: SB1590

My family has been a life long boaters. It truly is one of the most family friendly activities out there. A day in the sun pulling tubes, wakeboarding, and surfing when legal is fabulous fun for my kids and their friends. It's great physical activity and a break from too much screen time for the kids. There are sooo many families that feel the same. Limiting these activities and outlawing some of them all together with no scientific evidence is extremely unfortunate. There are always groups that oppose every activity but if we allow these to be successful i fear the future of outdoor activity will be pigeonholed into being next to nothing.. legislatures should go out on the river and see the many families enjoying these resources and the lack of harm that is done to the environment. Don't let the vocal minority paint an inaccurate picture!!!
