Measure: SB1583

I am a high school student in Oregon and I felt it important to share my view in this bill because it seems it would affect me in several ways. While I agree that diversity is important in libraries(especially school libraries), I find myself torn when considering content that elementary level students consume. I believe that we should not expose our young minds to inappropriate, violent or explicit sexual content. But I understand not limiting access to every person because they should all have a choice. On the other hand in no way do I think that book bans regarding the authors or characters sexual orientation or race are okay.
