

Submitter: Sharon Guinn  
On Behalf Of: HJR 201  
Committee: House Committee On Rules  
Measure: HJR201

You know what this increase will do to the middle class. You know how everything has gone up for health, insurance, transportation, food...you continue to place these unsustainable policies on the backs of property owners and middle class. Look what you've done to Portland .

Keep chipping away at the families trying to pay their bills and keep afloat of your endless spending that has reaked havoc on those paying the bills.

I am sooooo opposed to HJR 201...someone lead and make the tough decisions to cut spending.
