

Submitter: Thomas Frank

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

This bill is further raising tax and burden on citizens. It is also vaguely written and no sunset. This gives the state government too much power into the lives of our citizens while not explaining where the money is going. With the burden of increasing prices on utilities, groceries, etc. citizens do not need this extra burden. This would also be double taxing many things. Please vote no on this hideous law!
