

Submitter: Hazel Stratton

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Although this proposal, if passed, would place the imposition of another tax on the ballot, it is a bad idea. Many Oregon residents can not afford another tax. Between local government's' levies and fees that are placed on utility bills (Corvallis - water), this may force some home owners out of our state to less costly areas of the US. Secondly, it is unfair that the residents of a highly populated area can vote to impose additional taxes on our rural population. Please vote NO..
Thank you.
