

Submitter: Cheryl Eby

On Behalf  
Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal  
and World Affairs

Measure: SB1548

It is long overdue for the western states to make time what it should have been all along--standard. Daylight time was created for the war years, but that is long past, and our family, for one, are sick of jumping back and forth twice a year. It is very hard on the body for some of us and keeping it light an extra hour doesn't really accomplish anything. Vote YES on ending daylight time once and for all.
