

Submitter: Charles Tolboe  
On Behalf Of: Family  
Committee: House Committee On Rules  
Measure: HJR201

This measure is another way to pay for the unintended consequences of measure 110. Every time the legislature passes a law and it is ineffective the thought is give it more time and money. The money can come from taxpayers who already have the 5th highest gas tax in the country and property taxes that are too high. Don't put additional pressure on homeowners who are paying more than their fair share already.
