

Submitter: Jane Herb
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1583

Honorable Senators:

I strongly oppose SB 1583. Local needs are more important than blanket state-wide or nation-wide dictums. Local school boards are elected by, and are responsible to, the voters and residents of their service area. Please do not pass this measure which will tie the hands of these elected officials and silence the community's needs. The people of the school district boundaries need to be able to make their voices heard for topics that are unique to the particular school district and community.

Thank you.

Sincerely,

Jane Herb, Keizer
