

Submitter: Linda English  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB1576

Dear Chair Prozanski, Vice-Chair Thatcher, and members of the committee:

Support for -3 Recreational Immunity Fix Amendment to SB 1576

I am the Executive Director of a non profit that depends on the trails in our community to encourage gravel cyclists to get outside. We have over 200 curated gravel bike ride guides across the state, many which depend on our trail systems. Our ride guides have a positive impact on economic development (because we encourage people to visit an area.) and a positive mental/physical benefit to cyclists.

Please pass SB 1576-3 with language that clearly restores recreational immunity for public and private landowners and clearly applies to both improved and unimproved trails

End by expressing gratitude (for their consideration or their leadership, etc.)
