

Submitter: Dwight Sims

On Behalf
Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal
and World Affairs

Measure: SB1548

Going back to standard time makes so much sense, especially if Oregon can do it without waiting for other states or the feds to approve it.

I have never understood why we would want to go on daylight savings time all the time; as someone pointed out years ago, you can't make the daylight last any longer by changing the clocks, any more than you can make a blanket longer by cutting a foot off the top and sewing it to the bottom.

Please pass this bill, and "Ditch the Switch!"
