Measure: HJR201

As a tax paying citizen of Oregon, for over four decades I adamantly oppose this bill. This is true taxation without representation! Oregonians are some of the most taxed citizens of the US. You are driving out of state the hard-working Oregonians that have been footing the bill for this state for a very long time. If we need more funds to solve a state-wide program, reduce administrators and bureaucracy first! We the Oregonians OPPOSE this!!!
