

Submitter: Sean Snyder
On Behalf Of: We the People
Committee: House Committee On Rules
Measure: HJR201

This proposed amendment is not only absurd, it's egregious and a violation of the oaths sworn to the constitution, state and federal.

Is this administration going to have it's members appointed? Or VOTED for by the people?

This will not only affect hard working individuals who were fortunate enough to be able to own a home, but those paying rent to landlords will see the increase in taxes offloaded onto them. So it negatively affects both owners and renters. Not to mention consumers of products from any and all businesses, which inflation has already had a devastating affect on.

Could "public safety" be any more of a broad term? What are police, firefighters, and paramedics etc? Didn't we just go through several years of hearing people crying to defund the police? Now our incompetent, overly sized government wants additional taxes to pay for some vaguely, if not at all, described administration?

The only way any sane Oregonian would support this type of proposition is if it had to do with mental health, which is an absolutely catastrophic, ever increasing crisis in our state and the nation abroad. How about proposing what to do for those who are in desperate need of help, but are neglected by the state!

Those who are seated in positions of power, leadership, and governance will be held to a higher standard of accountability by The Lord who elevated them to such positions.

Do right by God, your oath to the constitution, and to your constituents which are no less of Image bearers than yourselves.

Do not add this amendment to the Oregon constitution.
God bless
