

Submitter: Ashley Corey

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

Curriculum and instructional materials should remain under the control of individual schools and school boards and the families they are serving. This bill does not reduce discrimination but increases it. Parents and school boards will be the ones discriminated against if this bill passes. Education is not a one-size-fits-all and never should be. Local variations are good things and reflect the communities in which schools are located. I am a parent of kids in public school and I oppose this bill.
