

Submitter: Donald Wirth

On Behalf
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB4059

the Willamette Valley is internationally known for producing quality vegetable seeds with excellent purity This measure threatens our ability to maintain that quality because of contamination coming for plants growing along roads etc. which fell off of last season. Secondly this is a crop produced in the providences of Canada down through into the Western Midwest as well. When wheat is cheap, they plant large acreages of canola. Don
