

Submitter: Kelly Brady

On Behalf
Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal
and World Affairs

Measure: SB1548

I am writing in support of SB 1548. I was so pleased to see that remaining on Standard time year round is a possibility.

I can't help but wonder that people who favor daylight savings time do not work outdoors. I have been fortunate to work in the great Oregon outdoors for 40 plus years, and switching to DST

in the spring is miserable for me. It is a time when the earth has warmed enough by 7 a.m. to be quite pleasant out, and then, bam!, back-up an hour.

I so love early summer mornings, but really dislike hot, dusty afternoons that seem way to long!

Do the proponents of year round DST realize it would be almost 9a.m before daylight around the winter solstice?!

Even though I am nearing retirement, the change to year round Standard time would still be such a blessing.

Thank-You for your time.

Sincerely, Kelly Brady
