

Submitter: Emily Papagni

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

With all the challenges children have growing up and navigating life, they need the protection that SB1583 provides. The bill will give them the freedom to read books about people who look like them, feel like them, act like them, and will give them a sense of place in the world. Just as importantly, SB1583 will help children understand others who do not look like them, or feel like them, or act like them.

Please vote yes for SB1583.
