

Submitter: Patricia Myers

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Oregonians already pay high taxes. Fixing something that should have been dealt with a long time ago on the backs of the working people that keep this State running is WRONG!! The state needs to learn to fix the errors they make and made without making it harder and harder to live here. If they keep pushing there will be a mass exodus as many people are already discussing leaving. If that happens who is going to be left to pay for anything.

Salem needs to wake up and learn how to run a State people would be proud of. Not the laughing stock it is in the nation now.
