

Submitter: Chloe Guo
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

Oregon already has the highest tax burden in the country. The top personal income tax rate of 9.9% kick in at \$125,000 taxable income. On top of that we have the art tax, preschool for all tax, and the famous homeless tax that seems to do nothing beside enriching the bureaucrats and encourage even more homeless. We Oregonians do not need another tax that do nothing other than squeezing hard working folks to the last penny. We are already struggling enough in this economy. Salem no longer represents hard working Oregonians. SAY NO TO THIS HJR 201.
